

# The Elliott Community Quality Improvement Plan Workplan

March 31, 2023

# Theme I: Timely and Efficient Transitions

# **Dimension: Efficient**

### Measure

| Indicator #1  | Туре | Unit/Population                    | Source/Period  | Current<br>Performance | Target | Target<br>Justification  | Comments  |
|---|------|------------------------------------|--|------------------------|--------|--|---|
| Number of potentially<br>avoidable emergency<br>department visits for<br>long-term care residents | Ρ    | Rate per 100 LTC<br>home residents | CIHI CCRS, CIHI<br>NACRS / October<br>2021 –<br>September 2022 | 9.5                    | 10     | NLOT reports,<br>WWLHIN rate is<br>14.0 and ON<br>rate is 18.5 | We have<br>consistently<br>performed below<br>the provincial and<br>LHIN rates,<br>therefore this<br>indicator will not<br>be a an area of<br>focus this year |

### Theme II: Service Excellence

# **Dimension: Resident-Centered**

| Indicator #2   | Туре | Unit/Population  | Source/Period  | Current<br>Performance | Target | Target<br>Justification   | Comments   |
|--|------|--|--|------------------------|--------|---|--|
| % of residents<br>responding positively to<br>the statement "I can<br>express my opinion<br>without fear of<br>consequences" | Ρ    | % / LTC home<br>residents who<br>responded to<br>annual experience<br>survey | In-house data<br>from 2022<br>Resident<br>Experience<br>Survey | 88.23%                 | 80%    | 80-100% of<br>positive<br>responses<br>indicates a high<br>level of<br>satisfaction | We have<br>consistently<br>performed above<br>our internal target,<br>therefore this<br>indicator will not<br>be an area of focus<br>this year |

# Theme II: Service Excellence

### **Dimension: Resident-Centered**

### Measure

| Indicator #3   | Туре | Unit/Population  | Source/Period  | Current<br>Performance | Target | Target<br>Justification   | Comments  |
|--|------|--|--|------------------------|--------|---|---|
| % of residents<br>responding positively to<br>the statement "I feel that<br>I have an opportunity to<br>be involved in decisions<br>relating to my care" | Ρ    | % / LTC home<br>residents who<br>responded to<br>annual experience<br>survey | In-house data<br>from 2022<br>Resident<br>Experience<br>Survey | 100%                   | 80%    | 80-100% of<br>positive<br>responses<br>indicates a high<br>level of<br>satisfaction | We have<br>consistently<br>performed above<br>our target,<br>therefore this<br>indicator will not<br>be an area of focus<br>this year |

# Theme II: Service Excellence

# **Dimension: Resident-Centered**

| Indicator #4   | Туре | Unit/Population  | Source/Period  | Current     | Target | Target  | Comments   |
|--|------|--|--|-------------|--------|---|--|
|  |      |  |  | Performance |        | Justification   |  |
| % of residents<br>responding positively to<br>all questions in the<br>category of dining<br>experience | С    | % / LTC home<br>residents who<br>responded to<br>annual experience<br>survey | In-house data<br>from 2022<br>Resident<br>Experience<br>Survey | 76%         | 80%    | 80-100% of<br>positive<br>responses<br>indicates a high<br>level of<br>satisfaction | Our 23/24 QIP<br>resident-centered<br>area of focus is to<br>enhance the<br>pleasurable dining<br>experience |

| Change Idea #1 Adopt the CHOICE+ Dining Room and Mealtime Practices checklists |  |  |   |  |  |  |  |
|--|--|--|---|--|--|--|--|
| Methods  | Process Measures   | <b>Target for Process Measure</b>          | Comments  |  |  |  |  |
| Assess our dining rooms using the CHOICE+ dining room checklist                | Identify the number of items on the checklist we need to improve | We will achieve 80% of the checklist items | We will prioritize the outstanding<br>items on the checklist and create a<br>plan to implement improvements                               |  |  |  |  |
| Assess our mealtime practices using the CHOICE+ dining room checklist          | Identify the number of items on the checklist we need to improve | We will achieve 80% of the checklist items | We will prioritize the outstanding<br>items on the checklist and create a<br>plan to implement improvements,<br>including staff education |  |  |  |  |

### Theme III: Safe and Effective Care

# **Dimension: Safe**

| Indicator #5  | Туре | Unit/Population           | Source/Period                           | Current<br>Performance | Target | Target<br>Justification  | Comments   |
|---|------|---------------------------|---|------------------------|--------|--|--|
| % of long-term care<br>home residents not living<br>with psychosis who were<br>given antipsychotic<br>medications | Ρ    | % / LTC home<br>residents | CIHI CCRS / July<br>– September<br>2022 | 16.5%                  | 15%    | Internal target<br>to reduce %<br>beyond our<br>current<br>performance | Although we are<br>performing below<br>provincial (21.1%)<br>and WWLHIN<br>(18.3%) average,<br>our internal data<br>has identified a<br>trend of an increase<br>on average by 1%<br>per quarter over<br>the last 4 reported<br>quarters. |

| Methods   | Process Measures                                       | Target for Process Measure   | Comments  |
|---|--|--|---|
| Plan staff education for GPA retraining   | Number of staff who attended GPA training in Q1-Q4     | 50% of staff who regularly interact<br>with residents complete GPA<br>training by Q4 | Staff groups may include nursing,<br>PSWs, recreation, dietary and<br>housekeeping  |
| Change Idea #2 Assess and Methods   | treat residents with responsive be<br>Process Measures | ehaviours for pain<br>Target for Process Measure                                     | Comments  |
| Track pain/worsened pain in<br>residents who are receiving<br>antipsychotic medications | Monitor CIHI data/internal pain<br>data                | Decrease residents with worsened pain to 11.5%                                       | Pain and behaviours have a direct<br>correlation, therefore by assessing and<br>treating pain prior to antipsychotic<br>use, we may decrease the need for<br>antipsychotics use |

# Theme III: Safe and Effective Care

# **Dimension: Effective**

| Indicator #5   | Туре | Unit/Population           | Source/Period                           | Current<br>Performance | Target | Target<br>Justification | Comments  |
|--|------|---------------------------|---|------------------------|--------|-------------------------|---|
| % of residents with new<br>or worsened stage 2 to 4<br>pressure injuries | С    | % / LTC home<br>residents | CIHI CCRS / July<br>– September<br>2022 | 3.7%                   | 2.5%   | CIHI Reports            | We will implement<br>multi-year strategy<br>to reduce at or<br>below Provincial<br>average (2.4%) and<br>WWLHIN (2.2%)<br>average |

| Change Idea #1 Implement Skin & Wound Module in Point Click Care   |   |  |   |  |  |  |  |  |
|--|---|--|---|--|--|--|--|--|
| Methods  | Process Measures  | Target for Process Measure   | Comments  |  |  |  |  |  |
| Point Click Care to provide<br>implementation and training for a<br>new skin & wound module                                | All registered staff to receive<br>training on new skin & wound<br>module within 1 month of go-live   | Go-live for new skin & wound module by June 1st  | Skin & wound module will support wound monitoring for effective interventions |  |  |  |  |  |
| Change Idea #2 Implement us  | e of new wheelchair cushion for   | r residents with high-risk of pre  | essure injury   |  |  |  |  |  |
| Methods  | Process Measures  | <b>Target for Process Measure</b>  | Comments  |  |  |  |  |  |
| Identify residents who require a<br>wheelchair for mobility and have a<br>high-risk of pressure injury using<br>PURS score | Every qualifying resident will trial<br>Starz wheelchair seat cushion and<br>continue to be monitored for<br>signs of new or worsening<br>pressure injury | % of residents with new or<br>worsened stage 2 to 4 pressure<br>injury decreased to 2.5% | Starz wheelchair cushion education to be provided to staff                    |  |  |  |  |  |
